

The Warren WSC Water System PWS ID 2290006 has violated the monitoring/reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis. Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination.

This/These violation(s) occurred in the monitoring period(s) 4th Quarter 2016.

THE REPORT WAS SUBMITTED TO TCEQ APPROXIMATELY 20 DAYS LATE, BUT WAS SUBMITTED.

We are taking the following actions to address this issue:

THE REPORT WAS SUBMITTED TO TCEQ APPROXIMATELY 20 DAYS LATE, BUT WAS SUBMITTED.

Please share this information with all people who drink water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Thomas MacGinnis at 409-429-0518.
